

On the map below you can see a small airplane below the city of Oshkosh Name that is your destination.

Map two below shows the airport and where you need to navigate to reach the CAP Training Faculty.

Continuing: driving up on US Hwy 41, the airport will be on your right. You will turn onto Hwy 44, for only a few hundred yards and **turn right onto KNAPP STREET ROAD** and follow it and go to the LEFT to the "Y", and it will turn to your left. Go straight ahead to the gate. Someone will be there to open it for you and then drive into the airport. If the gate is closed and nobody is there call (951) 970-9527 and I will get someone to come open it.

Stay on this road and when it turns to the right, you are there. Go around the right turn, and the corner and the first street to your right is the CAP Facility. We will be there waiting.
